EDUCATION

School Of Engineering, CUSAT. Kerala
B-tech in Computer Science

Jul. 2014 – Mar. 2018
GPA: 7.8/10

EXPERIENCE

IBM India Sep. 2018 – Present
Software Developer Bangalore

• **JustWalkOut (client: Amazon)** Mar.2022 – Present

- * JWO service that Automates **purchasing of goods and Services** for retails shop without human intervention
- * Developed customers and shop onboarding, **invoice generation** and **payment** integration
- * Python, FastApi, AWS services like SES, SQS, SNS, ApiGateway, Glue for authentication used for order processing

• **Security Management Portal (client: HSBC)** Sep.2020 - Feb 2022

- * Created REST API based **Django** web application for managing security credentials of clients
- * Adapted **ORM** for mapping objects to relational models and vice-versa while accessing database
- * Optimised performance of applicaiton by making it **scalable** and processing the data using **multi processing**
- * Automating the **security management from manual**, reduce the overall cost of operation by approx **7 man power**

• **IBM Garage Methods for Cloud Toolkit (client: IBM Internal Project)** Sep.2018 - Aug.2020

- * Collaborated with a team of 5; developed **Single-Click toolkit** to migrate java & python app to multiple clouds
- * Containerized Java, Python app; generated multiple templates using flask APIs and deployed by DevOps Tools
- * Enriched Dockerfile by analysing dependency of ant and maven build java project through flask APIs
- * Supervised the deployment of Toolkit in multiple Client servers of **Top US Telecom and Energy companies**

CERTIFICATION

- * **AWS Certified Developer - Associate** Mar. 2021
- * **IBM Certified Python for Data Science** Aug. 2021
- * **HackerRank Certified Python** Sep. 2021
- * **HackerRank Certified Problem Solving** Jun. 2022

SKILLS

Languages:	Python with Django and Flask, C++	DevOps Tools:	Terraform, Jenkins, Docker
Database:	PostgreSQL and Cassandra	Others:	Data Structure and Algorithm , Jinja
Cloud Platform:	AWS, IBM Private cloud, OpenShift		Template , GCP-Pub/Sub, Nginx

TRAINING AND INTERNSHIP

• **IBM Training On DevOps** Jul.2018 - Aug 2018

- * Trained extensively on major cloud service providers like AWS, IBM;Continuous Integration or Delivery i.e Jenkins
- * Practiced of Infrastructure as Code using tools like Terraform, Chef, Ansible;Familiarized version controlling tool GIT
- * Explored containerization platforms(Docker) and container orchestration tools like Kubernetes and Docker Swarm

• **Intenship at HPE** Jun.2017 - Jul 2017

- * Analysed the content across different databases- Postgres, Dynamodb and Athena using python pandas
- * Created Automated System that generated reports in csv, json format based on comparision results

EXTRA-CURRICULAR

- * **Won 2 Silver and 1 Bronze badge** for top performance in contest of online coding platform HackerRank
- * Repeatedly recognized for **top performance in client projects** through fast-track promotions in just 6 months
- * **Co-founded** LearnToCode CS Club in college, Organised 13 Guest lectures, Managed a fund of ₹.5 Lakhs
- * **Captain** of college cricket team, Won Gold for the 1st time in over 6 years in **inter-college** sports trophy 2017
- * **Organised** 24 Social awareness drives, tutored 60+ underprivileged kids, aided charity works of **RHA NGO** Bangalore
